

Cape Medical Supply's Consignment and Stock & Bill Solutions

Cape Medical Supply has been servicing sophisticated healthcare providers across New England for over 40 years. Our Consignment and Stock and Bill solutions are designed to provide the highest quality equipment directly at the point of care. These solutions allow hospitals, urgent care clinics and other healthcare professionals to provide their patients with the products and equipment they need to safely discharge back into the community without traveling to another location, or waiting for a delivery vehicle.

The products vary and we can customize to meet your needs.

Some of the more popular items are:

- Shoulder orthosis
- Ankle orthosis
- Crutches
- Walking boots
- Knee bracing
- Wrist and thumb bracing
- Walkers
- Spine bracing

How we do it:

We stock and deliver all products

Personnel gives products to patients

Patient signs for products

We bill the patient and their insurance

Our logistical expertise ensures our friendly delivery personnel will be there re-stocking your products when you need them, so you never run out and your patients and professionals always have what they need.

Cape Medical Supply leverages leading technology platforms from across the orthopedic space to provide a user experience that is unmatched. These reporting controls help loss prevention and help you find savings in your budget.

Whether you are buying these products today or using an outside vendor, Cape Medical Supply can help you upgrade your products and save you money.
